REPUBLICAN STATE PLAT-FORM.

I.
The Republicans of Nevada, in convention assembled, reaffirm their unflinching loyalty to the principles of the party as enumerated in their national platform, from Lincoln to Blaine. We believe that the ballot is the best and the only way to vindicate his race or color, and in the equality of every man before the law, with the unrestricted right of every citizen to cast his vote for whomsoever he chooses, with the assurance that it will be counted and each representative of the Union and the government are now re-ordained in history as the work of the Republican party. Union, liberty, equality and a protective tariff have largely contributed in making \$60,000,000 of people the best and the most powerful happy, contented and dignified and powerful party ever existed on earth. The elevation of labor by the abolition of slavery and the utter repudiation of caste and aristocracy by the Republican party has opened to free men and free labor every acre of land within the borders of the United States. It has enabled the toiling millions of the North and of the South to associate in one common brotherhood for the protection of their rights and the advancement of their intellectual and material prosperity.

II.
We arraign the Democratic administration of President Cleveland, for having failed to keep the promises on which it came into power. It has promised economy and retrenchment, and has been most extravagant in expenditures and appropriations, which, for the current year, largely exceed the abundant resources of the Government. The proposed reduction of the surplus in the Treasury, but reversing the rule of previous Administrations, has permitted such a surplus to lie idle and accumulate to the injury of the business of the country, and has refused to approve the reduction of large amounts of the expenses of Congress, directing that such amounts be applied in payment of the interest-bearing debt of the country. It promised to care for and give attention to the disabled soldiers and sailors of the late war, and has treated with contemptuous neglect every pensioner, and has failed to find any shadow of technical object in it. It promised to protect the persons and property of citizens both at home and abroad, and to maintain the dignity and honor of the nation, yet in its relations with Great Britain, it has shown itself unwilling to give protection to either its own property, and has permitted our flag to be insulted, without proper protest, almost in sight of our shores, while by hasty and unseemly action it has unnecessarily jeopardized our friendly relations with the Christian Republics of the world. Its evasion of civil service reform, to which its leading representatives are pledged, have been bold, insolent and lawless. It has shown itself in act of administration, however, an abject and pusillanimous administration, it is clear, that the United States Mint in Carson City, in violation of the law, to the great detriment of every miner and silver producer in this State, in particular, and of the public in general. It has set the shadow of just excuse. It has out-egged the express will of Congress, and denied to this people their rights by its unexplained and continued refusal to execute the law for the erection of a Government building

POLITICAL.

in the capital of this State. It has used the entire power of the Administration to destroy silver as money, and by a refusal to execute the law and pay out silver for Government dues has kept the miners out of circulation, and by so doing has reduced the value of silver since the inauguration of President Cleveland more than fifteen per cent. It has closed many of our silver mines, and thrown thousands of honest laborers out of employment.

III.

We favor a tariff upon the imported products of low-priced foreign labor, and upon the protection of American wage-workers and for the development of American industries. We demand in behalf of our mining interests the maintenance of the present tariff lead, borax, soda, and other mineral productions, and in behalf of our wool-growing interests a return to the wool-tariff of 1867, and we denounce the recent attempt of the Democratic majority in the National House of Representatives to pass the Morrison bill reducing the tariff on the products of our mines and placing wool on the free list.

IV.

We believe in American soil for American citizens, and are opposed to non-resident aliens being allowed to vote. The public lands should be reserved as homesteads for actual settlers, and the accumulation of large tracts of land in the hands of corporations or individuals should be discouraged, and in the case of land grants, the restrictions which the conditions have placed to the conditions of the grants the land should be forfeited to the General Government, and held for the benefit of actual settlers.

V.

We favor the intelligent organization of labor for such worthy purposes as mutual education and for the protection of their interests in all things relating to their welfare and to the welfare of the public. We favor the enactment of State and National laws providing for the settlement of controversies between employers and employees of methods of voluntary arbitration, and the establishment of a court of conciliation, when with regard to the wage, length and feeling resulting from strikes and lock-outs, and the usual expense of litigation.

VI.

We denounce the action of the Democratic House of Representatives at its last session in striking from the bill to compensate the citizens of this State for losses sustained in the Indian war of 1860 all claims for supplies furnished to the Indians, and also for services rendered during that memorable struggle in which the lives of a large number of our most respected citizens were sacrificed.

VII.

We denounce the pretense of the Democratic party of having sympathy for the cause of local self-government in Ireland while the Democratic House of Representatives, in Committee of Supply, rejected the bill introduced by that principle. In the months of April and June last that body, by Democratic votes, on several occasions rejected a resolution introducing a free Parliament for Ireland, which is the following words:

VIII.

Resolved, That our able Representative in Congress, the Hon. William Woodburn, deserves the united thanks of the people of this Territory, and the most cordial and warmest regards of the people of this state, and that we recognize in him an able statesman, a faithful Representative and an honest man, and say "Well done, thou good and faithful servant, renewal honors

Resolved, That we are unanimously in favor of home rule in Nevada, and believe that the men who pay her taxes and whose homes and interests are identified with the State should control its politics.

IX.

We commend the efforts of Senator Jones and Congressman Woodburn in obtaining an appropriation of \$30,000 for public land surveys in this State, and we condemn the action of the Commissioners of the General Land Office in withholding money appropriated for that purpose, and particularly condemning the action of Senator Jones in refusing himself from Washington during all the time when appropriations for this State were under consideration.

X.

We endorse the action of Senator Jones and Congressman Woodburn in their efforts to suppress polygamy in Utah, and to check the growth of disloyalty to the Government in that Territory, and we fully endorse the principles of the bill introduced by the principle of Senator Woodburn. We endorse the action of the Republican Senate in passing in the early days of the last session of Congress a bill well calculated to suppress the growing evil of polygamy, and check the growth of the hostile power of the Mormon Church, and in this we are following the example of the good name of the United States. We condemn the action of the Democratic House of Representatives in refusing during all the long session of Congress which has just closed to consider any measure tending to redress the country by the blotting out of polygamy and polygamous rule in Utah and the surrounding Territories.

XI.

We are opposed to the further importation of Chinese to this country, or any other foreign laborers, under the contract system, and we favor any plan for the relief of free labor from competition with convict labor, which does not impose upon free labor the burden of supporting the pauper and unskilled labor. We favor the adoption of laws providing for the protection of workers in our mines and other hazardous callings, and such other measures as will improve the material and social welfare of the working people. We are earnestly opposed to the doctrine of the so-called Aarchists, and we believe in the most perfect protection to each and every individual in the enjoyment of the fruits of all his personal efforts to earn an honest livelihood.

XII.

The paramount interest of civilization requires that the money used in a circulating medium in any country, at all times, be equal to the amount due to the increasing population of that country. Contraction of the currency in itself affords financial evils to which a nation can be subjected, among which are robbery of the debtor, stagnation of business, reduction of wages and the pauperization of the working classes. We denounce the bondholders and grasping creditors. We denounce the bondholders conspiracy to devalue silver and contract the money of the world, a single gold standard as a crime against civilization. It would doubtless give the nation a powerful position in the world, and the power of money, which now aggregate in the civilized world the enormous sum of more than one hundred thousand million dollars, and thereby make the rich richer and the poor poorer and impoverish the masses who have been compelled to live upon the sweat of their brows. We protest against the removal from official places of worthy and disloyal Union soldiers to make way for partisan civilians and ex-Confederates.

XIII.

We again declare our constant sympathy with the just and consistent Republican policy and practice of granting out of the nation's abundant generous resources to the seaboard and interior, and to the interior, the defense of the Union, and for the preservation of the Union. We protest against the removal from official places of worthy and disloyal Union soldiers to make way for partisan civilians and ex-Confederates. It has set the shadow of just excuse. It has out-egged the express will of Congress, and denied to this people their rights by its unexplained and continued refusal to execute the law for the erection of a Government building

POLITICAL.

high and honorable manhood, patriotic devotion to our country and loyalty to the principles of Republicanism which he so fittingly represented and did so much to advance. We shall ever treasure his memory and cherish his deeds.

XIV.

It is the duty of this State to maintain free speech, and to allow the people and thickly populated sections, but in the rural and sparsely settled districts, and as the education of pupils in the sparsely settled sections of the State is necessarily more expensive per capita than where a large number of pupils can attend the same school, such a division of the school money should be made as will furnish the means of educating all children in the State.

XV.

Expenditures beyond the means of private individuals are required for surveys, engineering and the construction of reservoirs, canals and other hydraulic works, for the purpose of irrigation in this State, we, therefore, favor an appropriate bill by Congress to be passed, both a topographical and topographical, to ascertain how the waters of this State which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known, suitable and may be made to dispose of its lands, and to enable the people to settle upon and occupy the same.

XVI.

Resolved, That two years' experience has demonstrated that the present jury law, which compels citizens at their own expense, without regard to their pecuniary ability or the losses they may suffer, summarily to suspend their trial, is a most undesirable and undesirable method of trying cases. We therefore demand of the next Legislature such legislation as shall secure to all citizens fair compensation for all the time which they spend and full reimbursement for all expenses which they incur in performing the duties of jurymen in the District Court.

XVII.

Resolved, That we point with pride and pleasure to the able and brilliant record made by our Senator in Congress, the Hon. John F. Jones, in his watchful and vigilant care of our interests upon all occasions, as are fully shown by his speech in defense of the miners of Nevada, and the reduction of duties upon foreign manufactures and foreign products which exposes in a masterly style and in a clear and forcible manner the free-trade doctrines of modern Democracy. His able and exhaustive speeches upon the question of the status of silver, particularly the last speech in Congress upon that subject, in which he has displayed more strongly his ability to render the obtrusive subject intelligent to the most common mind, and to the most ignorant and cold-blooded American dollar of our fathers in its rightful position as part of our circulating medium and purchasing power, and his logical and overwhelming arguments in favor of the passage of the Chinese Restriction and Exclusion amendments thereto, during the last Congress.

XVIII.

Resolved, That our able Representative in Congress, the Hon. William Woodburn, deserves the united thanks of the people of this Territory, and the most cordial and warmest regards of the people of this state, and that we recognize in him an able statesman, a faithful Representative and an honest man, and say "Well done, thou good and faithful servant, renewal honors

WHAT THE FAIR SHOWS.

There are any number of men to-day in Reno who are still in the prime of life who remember that when they came into Nevada it was generally believed that next to nothing could be done in the way of agriculture. The common report was that the plains were deserts covered with sagebrush—and that the hills and mountains were treeless and barren. There might be rich mines all over the State, but the population of the future would always be dependent on their more fortunate neighbors in California. The man who fifteen years ago would have said that Washoe county would some day raise the finest wheat in the United States, would have been called an idiot or insane. Who deemed then that the mountain sides would be soon covered with cattle fattening on the abundant grasses for the California market? The cattle business has become of the first importance and every day in the year sees long trains of cars loaded with beef cattle for the California market. The exhibit of fine blooded stock at the Fair Grounds shows that our people are fully alive to the importance of raising the best. The splendid teams that have been driven to the grounds every day shows that our people are not behind older communities in the appreciation of the comforts and elegances of the day. In some branches of manufacture the exhibit shows commendable progress and an honorable ambition to do good work. Our people will see what they have done upon a soil pronounced but a few years ago utterly worthless, and by an interchange of ideas lay the foundation for future improvement.

A Wheelmen's Parade.

St. Louis has had many magnificent processions, but nothing has eclipsed, in novelty and weird beauty, the wheelmen's illuminated parade, which took place Friday night on the asphaltum streets in the west end of the city, over a route nearly three miles in length. A dense throng of people greeted the parade, and despite the efforts of the police, the crowd filled the streets in some places so that only a narrow path was left for the cyclers. Headed by a band of fifty pieces the riders rolled up the streets, two of the flambeau clubs on wheels carrying red torches lighting up the line, which was about a mile long. Squads of riders representing animals, demons, cowboys, etc., formed a variegated collection, while some special bicycle and tricycle floats were marvels of illumination.

C. C. Stevenson, Republican candidate for Governor, boasts that he will spend two dollars to his opponent's one. Is a candidate's ability and fitness for any official position measured by the amount of money he spends in the canvass? We would mildly suggest that the office of Governor is not up at auction to be sold to the highest bidder, consequently Mr. Stevenson's chances are very slim.—Eliko Independent.

Mr. Stevenson does not expect to obtain votes with money, nor will he make a monied campaign.

When Governor Foraker, of Ohio, was called to account for sending tents to Charleston without authority of law, he replied: "I have no statutory authority, but necessity and humanity do not need any such authority. I have confidence enough in the patriotism and generosity of the people of this State to know they will approve and uphold the act."

Reno has been growing steadily the past year, and now recognize this more than those who have not seen the town since last Fair time. They are perfectly astonished at the progress the town has made. They express delight at the many marks of improvement, the new and elegant houses, the stately pavilion and the many evidences of prosperity on the outside.

Hon. H. F. Bartine, who was an unsuccessful candidate for the nomination as Attorney General before the Republican Convention last Saturday, will stump the State for the Republican ticket during the campaign.—Times Review.

How much does the Central Committee pay him?

Attorney General Garland, who has been rusticoing at his home, in Arkansas, for the past two months has returned to Washington to resume his official duties. Mr. Garland says he is in the best of health.

An exchange says: Forty years ago there occurred the first and only birth in the White House. How long hence—but why endeavor to peer into futurity?

The Democrats in the Fourth Congressional District of California have nominated Frank McCoppin for Congress.

Take a look at the White House advertisement. That establishment can supply you with everything in the clothing line.

W. D. Phillips and family returned from their Eastern trip Sunday night, and Phil's familiar face is again seen in the ticket office.

Jake Becker deserves credit for the tasty manner in which he has fitted up the bar at the race track with flags and evergreen decorations.

Col. E. P. Hardesty has declined the Democratic nomination for State Senator in Elko county. The Democrats talk of nominating Geo. Russell.

The employees at the Pavilion yesterday were kept hard at work arranging the exhibits, which promises to come up to the average, and will nearly all be in shape by this evening.

Mr. Hugh J. Mohan, the Irish orator, is winning golden opinions from the people of Storey county. Friend M. is a very bright young man and as an orator is a success in every particular.

The funeral of Miss Rose V. Ede, was the largest that has taken place in Reno for some time. During the ceremonies at the church the building was packed to its utmost capacity by friends of the family.

Gen. J. C. Hagerman several days ago received the appointment as Postmaster at Reno, and yesterday made up his mind to accept it, hoping that in the near future his services to his party would secure for him some better position.

CAMPAIN LIES.—This is about the time of the year for campaign lies, and we have heard several already. Voters in both parties should investigate a little before believing stories prejudicial to their candidates, started by some malicious and unprincipled person, that, nine times out of ten, has no character of his own to lose. It is a dirty business, and we are sorry that there are men in the county capable of carrying it on.

THE FAIR.

The First Day a Gain One—Five No. 1 Races.

The Fair opened under auspicious circumstances for the first day. The town was crowded with people, the weather was delightful, Reno looked very pretty, life and bustle was the order of the day, while the races at the track were good. President Stevenson and Directors White and Baily occupied the stand, while W. R. Chamberlain and Dolph Shane acted as timers.

THE RACES.

The first race was the $\frac{1}{4}$ dash between Berty R., Amy B., Lila Ferguson and Adeline. The pools sold with Berty R. favorite at \$10, and all the others in the field at \$5. The dash was hotly contested, but Theo. Winters' filly showed her breeding, and won in 1:16 1/2, Berty R. second, Lila Ferguson third, Amy B. last.

The Silver State Stake of a mile and a half dash was run for by Theo. Winters' Miss Courtney and Todhunter's May Blossom, and was won by the former in 2:48. It was a pretty contest.

The third race was the mile and repeat between Lige Clark and Lady Foster, the former the favorite at \$20 to \$6. The mare took the first heat in 1:50%. The Judges changed riders on the horse for the second heat, and he won it in 1:49 1/2. In this heat the mare crippled her shoulder, and she was permitted to be withdrawn, so all that Clark had to do was to gallop around the track to win the third heat and race.

The fourth race was the $\frac{1}{4}$ mile dash between Emma, Ten Cents, Sagebrush Sammy and John D. Emma sold at \$10, Ten Cents at \$5, and the other two in the field at \$2, and the boys who took the short end were made happy, for John D. won the brush in 23, Ten Cents second, and the favorite third.

The fifth and last race of the day was a regular fighting mile dash between Certiorari, Snuff Box and Billy Coombs, the horses coming in in the order named. Time 1:50. In the pools Certiorari sold at \$25, Snuff Box \$7, Billy Coombs \$7.

BELLA MOORE.—There was a good attendance at the Theater last night, the play for the evening being "A Mountain Pink," in which Miss Bella Moore sustained the principal role. The piece was of a sensational kind, which is characteristic of the most of the latter day dramas, and the plot not of much point, but the acting was creditable on the part of the company, and that of Miss Moore excellent, who soon won the good opinion of her audience by her sprightly manner and naturalness. The performance was well received, and had the company been billed for a second night another good audience would have been present to greet them.

The Enterprise, of Sunday says:

In another column to-day the Reno Milling, Smelting and Reduction Works management advertises that they will be prepared to buy all classes of ores after the 10th instant at their works in Reno. This is really a cheering and important notice, as showing the developing of a new industry for Nevada, and something of the most vital interest to the general prosperity of this essentially mineral State.

The Carson Tribune says:

Mrs. C. S. Preble has just completed a splendid portrait of Hon. C. S. Note-ware. It is in the store and should be seen by all, for it proves the lady an artist of no mean merit, in fact, nothing so good has ever been seen in Carson City.
